2018/19

- At St Osyth Church of England Primary School the percentage of children identified as having Special Educational needs (16.4%) remains slightly above the National average of 14.6% (2018)
- At St Osyth Church of England Primary School Special educational needs remain more prevalent in boys than girls. This is in line with National Data; 14.7% of boys were on SEN support in January 2018 compared to 8.2% of girls.

- Data appears to suggest that the greatest area of need at St Osyth Church of England Primary School is Social, Mental and Emotional Difficulties at 31.2%, which is above the National average of 17.5%
- St Osyth Church of England Primary School appears to have seen an increase of 5.3% in Speech, Language and Communication difficulties which has taken the school above the National average by 4.2%. This is mainly due to a better identification of the needs of those with low prior attainment not previously on the SEND register.
- Although St Osyth Church of England Primary School appears to have a greater percentage of pupils with Autism and Social Communication Difficulties than the National Average (+4.7%) the National data in this instance is for pupils receiving SEN Support only. This comparison was made as *all* pupils at St Osyth Church of England Primary School with Autism or social communication difficulties currently receive SEN Support.

The national average of pupils with EHCP's for this category of need is 28.2% and remains the highest category of need for pupils with EHCP's in place.

- At St Osyth Church of England Primary School data appears to suggest that pupils with special educational needs are more likely to be eligible for PPG funding and that this figure is increasing over the year. This trend is in line with National data in which 25.8% of pupils with SEN were eligible for free school meals compared to 11.5% of pupils without special educational needs. Pupils with statements or EHC plans are more likely to be eligible for FSM than pupils on SEN support (30.9% compared to 24.5%).
