7 respondents (29%) answered **School** for this question.

ID ↑	Name	Responses
1	anonymous	Quality of Teaching/Staff, quality of communications, Friendly Family atmosphere.
2	anonymous	Quality of teaching Happiness of my child Chickens
3	anonymous	Approachable staff safe good learning
4	anonymous	School trips Early start Chickens and otis
5	anonymous	The children are happy, learning well and support each other.
6	anonymous	My child is happy Well cared for Made excellent progress
7	anonymous	Friendly, safe, enjoyable
8	anonymous	The after school clubs they offer. Teacher communication. Dealing with situations.
9	anonymous	Class teachers are just fantastic, know the children so well, are able recognise their personal achievements and encourage their own personalities to shine through as well as being able to share any concerns. Teachers have taken on suggestions and ideas from parents to support my children as well as coming up with creative ideas for them. Making school a fun environment to learn to the best of their ability

10	anonymous	Safety, communication good old fashioned Christian values (daily worship etc)
11	anonymous	Smiley staff Opportunity to go on trips Sense of belonging
12	anonymous	It's is all good
13	anonymous	Good class teachers
14	anonymous	School dog Dinners It's clean
15	anonymous	1. It's a small school 2. Friendly teachers 3. Rewards earned/given
16	anonymous	Attitude to learning, understanding of individual circumstances and quality of teacher
17	anonymous	Chickens grounds and teachers
18	anonymous	Great
19	anonymous	Having extra help with sendco Smaller groups Golden awards
20	anonymous	Nothing to add very good
21	anonymous	How supportive and understanding they are of New pupils with emotional needs. Inclusion from the very beginning. Empathy and understanding whilst ensuring children are educated alongside having fun.

22	anonymous	All of the staff are wonderful good leadership is reflected in the staff and this is very much the case in our school. Communication from school to parents is fantastic. Even the most scatter-brained parents (ME!) can keep up with clear, well communicated actions! It has a community feel since it is a village school.
23	anonymous	Friendly, engaging, organised
24	anonymous	The children are always happy, they enjoy going to school and lots of curriculum activities

Update

8 respondents (33%) answered **children** for this question.

ID ↑	Name	Responses
1	anonymous	I cannot think of anything as it is a really positive environment that my children enjoy attending.
2	anonymous	Concerns from parents were dealt with better
3	anonymous	It's just right
4	anonymous	Grew veg show children how to grow share not waste
5	anonymous	N/A
6	anonymous	0
7	anonymous	We could see more of their work more often
8	anonymous	The teachers communicated more with issues that arise
9	anonymous	All staff were taught about supporting children with challenging behaviours, deescalation techniques etc I don't believe any child should go to school and be shouted at by adults who are trusted to care for them. All school staff should be taught more appropriate strategies and higher expectations put on the way some staff talk to children.
10	anonymous	More updates about child's progress, classes come out on time lol
11	anonymous	N/A

11	anonymous	N/A
12	anonymous	Can't think of anything
13	anonymous	Senior leaders show up to things like sports day, this year was mayhem with parents going right up to the kids and standing in other parents view. Needed senior management to put the parents back in line!
14	anonymous	They worked closer with SENco and kids to make sure children are getting what they need and listen more to parents with sen children as the parent always knows their child more.
15	anonymous	Things were refreshed, eg paint on playgrounds, more positive praise individually
16	anonymous	The pool was repaired/replaced
17	anonymous	The swimming pool was used or removed completely. If they offered wrap around care with a proper after school club rather than the only option being off site at little pals.
18	anonymous	Nothing

19	anonymous	Stay with the same teacher for 2 years
20	anonymous	Please stop bringing live animals into the school such as reindeer, horses etc these animals do not enjoy being a spectacle for crowds of noisy children. As herd animals the safety of their familiar environment, their friends, free movement and browsing for forage is really important to them. Moving them to alien environments to stand still in a pen all day is not any fun for the animals and I think we should be teaching children to respect animal's species specific needs. We can learn about these animals without bringing them into the school. I am a force free multiple species behaviourist working with dogs, cats and horses. I would be happy to help with some education on this topic should the school want that. You can find me at www.houndcharming.com and on my Facebook public page.
21	anonymous	Our child could remain there longer due to the level of positive nurturing and support.
22	anonymous	There was something similar to the old gifted and talented support was still available. I do appreciate this is because the scheme has been dropped nationally, and also appreciate that "gifted and talented" as a term may not be the best choice of words. Some additional support or some extra curricular for those children who wish to sit the 11+ would be fantastic. I know several children in William's year who are studying for the 11+ so it would be great if there was an after school club for such needs.
23	anonymous	An open to all after school club until 17:30
24	anonymous	They had an accessible bike shed to lock students bikes up

14. Why would you recommend this school to another parent?
